About Us

Colvanbridge Ltd was formed in 1978 by our Chairman

Mr Geoff Coolbear

Starting out working exclusively for British Shoe Corporation, we now work with a client base which includes retailers, wholesalers, brands, concessions and independents within not only the footwear sector but the fashion industry as a whole.

We have offices in Hong Kong, Holland and Portugal and strategically placed partners covering other key areas such as Brazil and India.

Today the business offers a complete 3PL supply chain freight management service including pre-retailing, IT solutions, P.O Management, Freight Forwarding, Customs Clearance/Duty management, Warehousing and Distribution, encompassing Import, Export and Cross trade services. The company has its head office in Essex with a further office at Heathrow.

Warehousing

BONDED

Controlled in-house by our duty management team with direct system interaction with HMRC The purpose of Bonded warehousing enables the importer to defer import duty and VAT until a time they wish to move cargo into free circulation, export outside the EU or destroy.

PICK PACK

Colvanbridge Ltd specialises in full order fulfilment practices and provides material handling and inventory control services.

STORAGE

Colvanbridge Ltd can offer Long and short term storage services. Utilising our main site or one of our carefully selected 3rd party warehouses we can offer a full solution.

Warehousing Cont:

E-COMMERCE

Via file transfer and access to/from 3rd party platforms we have a fully functional (barcoded available) Ecommerce system generating returned system interaction to clients in real-time.

PRE- RETAILING

Colvanbridge Ltd specialises in full order fulfilment practices and provides material handling and inventory control services to our clients specific needs.

DISTRIBUTION

Being a customer focused company, the fleet of vehicles we have access to, varies according to the business requirement.

Sea Freight Services

FCL and LCL (Full/Less than Container Loads) working closely with shipping lines enables us to provide flexible transit times. It also enables us to offer multiple sailings per week, from the Far East, India, Brazil, Dubai and the USA an important option when working to just in time delivery dates.

Working with several of the main shipping lines we offer ocean freight solutions by whatever means suits you, catering for all terms of purchase, some of which are:-

DDU (Delivered Duty Unpaid) and DDP (Delivered Duty Paid) - As retailers look to reduce their exposure to rate of exchange changes and to enable them to focus on Retail, many are demanding DDU / DDP terms.

Colvanbridge can assist you in meeting these delivery terms.

Road Freight Solutions

Through our established network of hauliers and strategically located partners across both Eastern and Western Europe, we are able to offer clients regular weekly Import and Export services from/to Portugal, Spain, Italy, Holland, Romania and Turkey be it 1 parcel or a complete load.

Within most origins we are able to offer warehousing and consolidation services along with factory collections via domestic transport network or directly on the international trailer.
